**Subject:** EPA Approval of the Final RI/FS QAPP Revision No. 2

.....  
>>>>>>>>>

Dear Mr. Brown:

The U.S. Environmental Protection Agency (EPA) has completed its review of the 2017 Atlantic Richfield (ARC) Final Revised RI/FS Quality Assurance Project Plan, Revision 2 (Revised QAPP) for the Leviathan Mine Site in Alpine County, California, dated January 27, 2017. This work was submitted to EPA pursuant to Administrative Order for Remedial Investigation and Feasibility Study, Leviathan Mine, Alpine County, California (CERCLA Docket No. 2008-18, June 23, 2008).

EPA has completed its review and finds that ARC's response is adequate; and approves the final revised January 27, 2017 QAPP.

EPA directs ARC to implement the quality control procedures identified in the QAPP for all data. Further, ARC shall ensure, at a minimum, that each annual QAPP update includes any necessary revisions to the Data Quality Objectives and the CSM with a clear written statement that these have been reviewed and updated or remains unchanged. That shall be explicitly identified in the annual QAPP update.
